

WIHA 32084 SLOTTED AND PHILLIPS INSULATED SCREWDRIVER SET

Wiha 32084 Slotted and Phillips Insulated Screwdriver Set 5-Piece

Wiha 32084 Slotted and Phillips Insulated Screwdriver Set 5-Piece

The Wiha 32084 5 piece screwdriver set is my second most frequently used screwdriver set. The handles are comfortable and provide a solid grip to apply a good amount of torque. The hardened precise blade tips prevent screw damage on even the most stubborn brass screws. The long insulated shanks are great for working in live panels and electrical equipment. The small flat blade driver works great on small terminal block screws. The large flat blade screwdriver is excellent for general terminal screws found on VFDs, circuit breakers, etc.

The only issue I have with the Wiha 32084 set is their attractive color makes them the first choice of my team to borrow from [my toolbox](#). The team treats all screwdrivers as prybars, chisels, scrapers, etc., anything but their intended purpose.

Components Included:

- Insulated SoftFinish Slotted Screwdriver (3.5, 4.5, 6.5mm)
- Insulated SoftFinish Phillips Screwdriver (#1, #2)

Wiha 32084 Insulated SoftFinish® Cushion Grip Drivers are the standard for premium quality featuring ergonomic cushion grip handles for comfort and control, dual durometer construction for long-lasting durability, and handles directly molded to the blade for a permanent bond. The handles are sized proportionately to the blade for consistent mechanical advantage, include parallel flats to prevent table-top roll-off, and have driver tip profiles labeled on the cap for easy identification. Wiha Insulated SoftFinish® Cushion Grip Drivers consist of

Wiha engineered premium quality tool steel for strength and durability, has a black oxide finish for corrosion protection and features exact fit precision machined tips for reduced cam-out. Every single Wiha insulated tool is individually tested to 10,000 volts AC and rated to 1,000 volts AC (1,500 volts DC) for safety and peace of mind in energized applications.

All Wiha Insulated tools are:

- VDE certified and met EN/IEC 60900 testing standards for protection against arc flash explosion.
- ASTM F1505 standard specifications for insulated and insulating hand tools.
- NFPA-70E standards for electrical safety on the Jobsite, and CSA testing benchmarks for safety and performance.

Wiha premium quality Insulated SoftFinish® Cushion Grip Drivers are designed and engineered by Wiha Germany and Manufactured in Germany. You can buy with confidence knowing that the Wiha No Hassle Guarantee backs this product.
